

# LIST OF ILLUSTRATIONS.

## EXPLORATIONS IN COLORADO AND UTAH.

<b>PLATE I.</b>		
FIG. 1. Yellow-finned Trout ( <i>Salmo mykiss macdonaldi</i> ) .....		12
2. Green-back Trout ( <i>Salmo mykiss stomias</i> ) .....		12
3. Red-throated Trout ( <i>Salmo mykiss</i> ) .....		12
<b>PLATE II.</b>		
FIG. 4. Red-throated Trout ( <i>Salmo mykiss lewisi</i> ). Young .....		14
5. Lake Tahoe Trout ( <i>Salmo mykiss henshawi</i> ) .....		14
6. Colorado River Trout ( <i>Salmo mykiss pleuriticus</i> ) .....		14
<b>PLATE III.</b>		
FIG. 7. Rio Grande Trout ( <i>Salmo mykiss spilurus</i> ). Adult .....		16
8. Rio Grande Trout ( <i>Salmo mykiss spilurus</i> ). Young .....		16
9. Utah Lake Trout ( <i>Salmo mykiss virginalis</i> ) .....		16
<b>PLATE IV.</b>		
FIG. 10. Waha Lake Trout ( <i>Salmo mykiss bouvieri</i> ) .....		20
11. Humpback Sucker ( <i>Xyrauchen cypho</i> ) .....		20
<b>PLATE V.</b>		
FIG. 12. Uncompahgre Sucker ( <i>Xyrauchen uncompahgre</i> ) .....		26
13. The "Sucker" ( <i>Chasmistes liorus</i> ) .....		26
<b>RECONNOISSANCE OF THE STREAMS AND LAKES OF THE YELLOWSTONE NATIONAL PARK.</b>		
<b>PLATE VI.</b> —Map of Yellowstone Park .....		41
<b>PLATE VII.</b>		
FIG. 1. Gray Sucker ( <i>Catostomus griseus</i> ) .....		42
2. Red Horse Sucker ( <i>Catostomus ardens</i> ) .....		42
3. The Dace ( <i>Rhinichthys dulcis</i> ) .....		42
4. <i>Agostia nubil</i> .....		42
<b>PLATE VIII.</b>		
FIG. 5. The Utah Chub ( <i>Leuciscus atrarius</i> ) .....		44
6. <i>Leuciscus hydrophlox</i> .....		44
7. The Grayling ( <i>Thymallus signifer</i> , var. <i>ontariensis</i> ) .....		44
<b>PLATE IX.</b>		
FIG. 8. Mountain Whitefish ( <i>Coregonus williamsoni</i> , var. <i>cismontanus</i> ) .....		46
9. Mountain Whitefish ( <i>Coregonus williamsoni</i> , var. <i>cismontanus</i> ). Head of breeding male .....		46
<b>PLATE X.</b>		
FIG. 10. Red-throated Trout ( <i>Salmo mykiss</i> ) .....		48
11. Red-throated Trout ( <i>Salmo mykiss</i> ). Young .....		48
12. Miller's Thumb ( <i>Cottus bairdi</i> , var. <i>punctulatus</i> ) .....		48
<b>PLATE XI.</b> —Yellowstone River; rapids above the Upper Falls .....		50
XII.—Upper Falls of the Yellowstone River .....		50
XIII.—Lower or Great Falls of the Yellowstone River .....		50
XIV.—Crystal Falls of Cascade Creek .....		52
XV.—Tower Falls of Tower Creek .....		54
XVI.—Undine Falls of Lava Creek .....		56
XVII.—Osprey Falls of Gardiner River .....		58
<b>PLATE XVIII.</b>		
FIG. 1. Rustic Falls of Glen Creek .....		58
2. Beaver Lake, showing beaver dams .....		58
<b>PLATE XIX.</b> —Virginia Cascade of Gibbon River .....		60
XX.—Gibbon Falls of Gibbon River .....		60

VIII BULLETIN OF THE UNITED STATES FISH COMMISSION.

PLATE XXI.		
FIG. 1. Keppler's Cascade of Firehole River.....	60	
2. Rapids on Lewis Fork of Snake River.....	60	
PLATE XXII.—Lower Falls of Firehole River.....	62	
LARVAL DIBOTHRIA FROM THE YELLOWSTONE NATIONAL PARK.		
PLATE XXIII.—FIGS. 1 to 5.....	77	
XXIV.—FIGS. 1 to 6.....	77	
XXV.—FIGS. 1 to 5.....	78	
XXVI.—FIGS. 1 to 5.....	78	
XXVII.—FIGS. 1 to 6.....	79	
PEARL FISHERY OF THE GULF OF CALIFORNIA.		
PLATE XXVIII.—Camp of Pearl-diver .....	92	
XXIX.—Apparatus of the Modern Pearl-diver.....	92	
XXX.—La Paz; showing Pearl Warehouses.....	93	
PLANTING OYSTERS IN SOUTHERN CALIFORNIA.		
PLATE XXXI.—Map of Alamitos Bay, California .....	96	
XXXII.—Map of Newport Entrance, Los Angeles County, California .....	96	
XXXIII.—Map of part of Western Coast of Mexico, south of Guaymas.....	98	
XXXIV.—Dead oyster shells in the center of oyster bed.....	98	
WARTLIKE EXCRESCENCES OCCURRING ON THE SHORT MINNOW.		
PLATE XXXV.—FIGS. 1 to 16.....	102	
THE CRAB FISHERY OF CRISFIELD, MARYLAND.		
PLATE XXXVI.—Blue or edible crab ( <i>Callinectes hastatus</i> ) .....	103	
PLATE XXXVII.—Plans of Dugout Crab-canoe.		
FIG. 1. Deck plan .....	104	
2. Midship cross-section.....	104	
PLATE XXXVIII.—Sail and sheer plan of bateau.....	106	
XXXIX.—Dredging for crabs; typical Chesapeake canoe .....	108	
XL.—Crab dredge.....	108	
XLI.—Crab float or pound.....	110	
EXPLORATIONS MADE IN MISSOURI AND ARKANSAS.		
PLATE XLII.		
FIG. 1. <i>Zygonecetes macdonaldi</i> .....	130	
2. <i>Etheostoma julis</i> .....	130	
EXPLORATIONS MADE IN ALABAMA.		
PLATE XLIII.		
FIG. 1. <i>Fundulus albolineatus</i> .....	156	
2. <i>Etheostoma jordani</i> .....	156	
IMPROVED FORM OF OYSTER TONGS.		
PLATE XLIV.—Deep-water Oyster Tongs .....	164	
SALMON AND SALMON RIVERS OF ALASKA.		
PLATE XLV.—Seining salmon at Karluk, looking southwest. Canneries of Karluk Packing Company (left) and Alaska Improvement Company.....	165	
PLATE XLVI.		
FIG. 1. The King Salmon ( <i>Oncorhynchus chowicha</i> ) .....	208	
2. The Dog Salmon ( <i>Oncorhynchus keta</i> ).....	208	
3. The Silver Salmon ( <i>Oncorhynchus ktsutch</i> ) .....	208	
PLATE XLVII.		
FIG. 4. The Humpback Salmon ( <i>Oncorhynchus gorbuscha</i> ). Sea-run .....	208	
5. The Humpback Salmon ( <i>Oncorhynchus gorbuscha</i> ). Breeding male .....	208	
PLATE XLVIII.		
FIG. 6. The Red Salmon ( <i>Oncorhynchus nerka</i> ). Sea-run .....	208	
7. The Red Salmon ( <i>Oncorhynchus nerka</i> ). Breeding male.....	208	
8. The Dolly Varden Trout ( <i>Salvelinus malma</i> ) .....	208	

PLATE XLIX.		
FIG. 9.	The Steel Head ( <i>Salmo gairdneri</i> ). Adult.....	208
10.	The Steel Head ( <i>Salmo gairdneri</i> ). Young.....	208
11.	Clark's Trout ( <i>Salmo purpuratus</i> ).....	208
PLATE		
L.	Karluk Head, or Cape Karluk.....	208
LI.	Karluk Cliffs from Karluk, looking northeast.....	208
LII.	Fleet of salmon vessels in Karluk Bay, August 9, 1889.....	208
LIII.	Fleet of salmon vessels in Karluk Bay, August 27, 1889.....	208
LIV.	Karluk Peninsula, showing canneries, seining operations, and Karluk River.....	208
LV.	Native village, Karluk, Kadiak Island, Alaska.....	208
LVI.	Native dwelling (Barabara) at Karluk, Kadiak Island, Alaska. Greek church in background.....	208
LVII.	Seining salmon at Karluk, looking east. Piling salmon on beach for transfer to canneries. Salmon Shark in foreground.....	208
LVIII.	Seining salmon at Karluk, looking east from beach, nearly west of Alaska Improvement Company's cannery.....	208
LIX.	Seining salmon at Karluk; hauling seine; pewing fish on beach; heap of 10,000 salmon from one haul.....	208
LX.	Seining salmon in Karluk River.....	208
LXI.	Karluk River mouth; cannery of Alaska Improvement Company; end of Karluk Peninsula.....	208
LXII.	Karluk River; Bidarka with natives; office of Karluk Packing Company; steamers <i>Bertha</i> and <i>Haytien Republic</i> .....	208
LXIII.	Karluk Lake, from north end.....	208
LXIV.	Karluk Lake, from south end.....	208
LXV.	Lake tributary to west arm of Karluk Lake; breeding ground of Red Salmon.....	208
LXVI.	Lake tributary to east arm of Karluk Lake; breeding ground of Red Salmon.....	208
LXVII.	River connecting east arm of Karluk Lake with its tributary lake; salmon breeding ground.....	208
LXVIII.	Karluk River source; Karluk Lake in foreground.....	208
LXIX.	Karluk River near its source, showing lines of bowlders utilized in building salmon traps.....	208
LXX.	Salmon Fleet in Uyak Bay August 26, 1889: Steamer <i>Bertha</i> , bark <i>Coryphene</i> , steamers <i>Ella Rohlf's</i> , <i>Haytien Republic</i> , and <i>Aleut</i> .....	208
LXXI.	Larsen's Cove, Uyak Bay, and cannery of Arctic Packing Company.....	208
LXXII.	Snug Harbor, Alitak Bay, cannery of Kadiak Packing Company.....	208
LXXIII.	Kadiak Packing Company's cannery, Alitak Bay, native skin canoes or bidarkas.....	208
LXXIV.	Narrows in Alitak Bay, looking southeast, least width about 100 feet.....	208
LXXV.	Entrance to Olga Bay from Alitak Bay, looking southwest.....	208
LXXVI.	Salmon River falling into Olga Bay. Old salting station and now a cannery site.....	208
LXXVII.	Lake in rear of the station of the Alaska Coast Fishing Company, Port Hobron, Sitkalidak Island, Kadiak.....	208
LXXVIII.	Salmon Station of the Alaska Coast Fishing Company, Port Hobron, Sitkalidak Island, Kadiak.....	208
PLATE LXXX.		
FIG. 1.	Canneries of Royal Packing Company and Russian American Packing Company, at Afognak.....	208
2.	Cascades in Afognak River.....	208
PLATE		
LXXX.	Chart of the Kadiak group of islands.....	208
LXXXI.	Topographical Map of the mouth of Karluk River, Kadiak Islands, Alaska.....	208
LXXXII.	Reconnaissance Map of Karluk Lake and portion of Karluk River.....	208
LXXXIII.	Map of Port Larsen, Uyak Bay, Kadiak.....	208
LXXXIV.	Map of Snug Harbor, Alitak Bay, Kadiak.....	208
LXXXV.	Running Chart of Olga Bay and Entrance, Kadiak Island, Alaska.....	208
LXXXVI.	Reconnaissance Map of Afognak Lake and River.....	208
LXXXVII.	Map of Alaska showing location of the Salmon Canneries, season of 1889.....	208

## EMBRYOLOGY OF THE SEA BASS.

PLATE LXXXVIII.	Figs. 1 to 9.....	278
LXXXIX.	Figs. 10 to 16.....	278
XC.	Figs. 17 to 24.....	278
XCI.	Figs. 25 to 32.....	278
XCII.	Figs. 33 to 38.....	278
XCIII.	Figs. 39 to 44.....	278
XCIV.	Figs. 45 to 53.....	278
XCV.	Figs. 54 to 62.....	278
XCVI.	Figs. 63 to 70.....	278
XCVII.	Figs. 71 to 81.....	278
XCVIII.	Figs. 82 to 91.....	278
XCI.	Figs. 92 to 100.....	278
C.	Figs. 101 to 109.....	278
CI.	Figs. 110 to 116.....	278
CII.	Figs. 117 to 126.....	278

PLATE	CIII.—Figs. 126 i to 126 iv and 127 to 130 .....	278
	CIV.—Figs. 131 to 138 .....	278
	CV.—Figs. 139 to 145 .....	278
	CVI.—Figs. 146 to 148 .....	278
	CVII.—Figs. 149 to 151 .....	278
FIGURES IN TEXT:		
FIG.	1. Ideally symmetrical 32-cell stage .....	213
	2. Variation in frog's segmentation imitating Teleostean segmentation .....	215
	3. Diagrammatic section to illustrate formation of randwulst .....	219
	4. Diagrammatic section through a blastoderm to illustrate Götte's account of the development of the randwulst and germ ring .....	222
	5. Transverse vertical section through frog embryo to show partial delamination of mesoblast .....	229
	6. Diagram to illustrate formation of invaginate groove as it is supposed to take place according to the "principle of unequal growth" .....	238
	7. Diagram of closing blastopore of Triton .....	261
	8. Diagram to illustrate Haeckel's idea of Teleostean gastrulation .....	262
	9. Diagram of early Teleost gastrula .....	263
	10. Diagram of Teleost gastrula not long before Blastopore closure .....	264
	11. Median longitudinal section through frog's gastrula .....	265
	12. Diagram to illustrate Kupffer's theory of the Amniotic gastrula .....	269

## FISHING GROUNDS OF BRISTOL BAY, ALASKA.

PLATE	CVIII.—Chart of Bristol Bay and Alaska Peninsula, Alaska .....	288
	CIX.—Chart of Lower Nushagak River, Alaska .....	288
	CX.—Chart of Port Moller and Herendeen Bay, Alaska .....	288

INVESTIGATION OF THE OFFSHORE FISHING GROUNDS OF THE GULF OF MEXICO  
ADJACENT TO THE COAST OF FLORIDA.

PLATE	CXI.—Chart showing the work of the <i>Grampus</i> January 27 to April 10, 1887 .....	312
FIGURE IN TEXT:		
	New species of Eel ( <i>Sphagebranchus kendalli</i> ) .....	310

## THE GIANT SCALLOP FISHERY OF MAINE.

PLATE	CXII.—Map showing the extent and location of beds of the Giant Scallop operated on the coast of Maine during the year 1889 .....	313
	CXIII.—Giant Scallop ( <i>Pecten magellanicus</i> ) .....	314
	CXIV.—Scallop Dredge .....	322
	CXV.—Towing a Scallop Dredge off Mount Desert .....	324
	CXVI.—Scallop Grounds at mouth of Bagaduce River, Maine .....	325

## LIFE HISTORY OF A PARASITE INFESTING THE TROUT OF YELLOWSTONE LAKE.

PLATE	CXVII.—Figs. 1 to 16 .....	358
	CXVIII.—Figs. 17 to 27 .....	358
	CXIX.—Figs. 28 to 34 .....	358

## OCCURENCE OF PROTOZOAN PARASITES ON CYPRINOID FISHES IN OHIO.

PLATE	CXX.—Protozoan Parasites of Minnow .....	361
-------	--	-----

## THE KING CRAB FISHERY OF DELAWARE BAY.

PLATE	CXXI.—The King Crab ( <i>Limulus polyphemus</i> ) .....	363
	CXXII.—Pound-net for catching King crabs and Fish .....	364
	CXXIII.—Stake weir for King crabs .....	366

## PHYSICAL INVESTIGATIONS OFF THE NEW ENGLAND COAST.

PLATE	CXXIV.—The <i>Grampus</i> under sail .....	391
	CXXV.—Sounding Apparatus in operation .....	395
	CXXVI.—No. 1 .....	428
	CXXVII.—No. 2 .....	429
	CXXVIII.—No. 3 .....	430
	CXXIX.—No. 4 .....	431
	CXXX.—No. 5 .....	432

PLATE	CXXXI.—No. 6.....	433
	CXXXII.—No. 7.....	434
	CXXXIII.—No. 8.....	435
	CXXXIV.—No. 9.....	436
	CXXXV.—No. 10.....	437
	CXXXVI.—No. 11.....	438
	CXXXVII.—No. 12.....	439
	CXXXVIII.—No. 13.....	440
	CXXXIX.—No. 14.....	441
	CXL.—No. 15.....	442
	CXXI.—No. 16.....	443
	CXXII.—No. 17.....	444
	CXXIII.—No. 19.....	445
	CXXIV.—No. 20.....	446
	CXXV.—No. 22.....	447
	CXXVI.—No. 23.....	448
	CXXVII.—No. 24.....	449
	CXXVIII.—No. 25.....	450
	CXXIX.—Profile No. 1.....	451
	CL.—Profile No. 2.....	452
	CLI.—Profile No. 3.....	453
	CLII.—Profile No. 4.....	454
	CLIII.—Profile No. 5.....	455
	CLIV.—Profile No. 6.....	456
	CLV.—Profile No. 7.....	457
	CLVI.—Profile No. 8.....	458
	CLVII.—Profile No. 9.....	459
	CLVIII.—Chart showing positions of the stations occupied by the <i>Grampus</i> .....	459
FIGURE IN TEXT.....		403

## THE OYSTER FISHERY OF CONNECTICUT.

PLATE	OLIX.—Sailing sharpy.....	463
	CLX.—The first oyster steamer, <i>Early Bird</i> .....	465
	CLXI.—The oyster steamer <i>Florence</i> .....	467
	CLXII.—Oyster-dredging steamer and sharpies at work on Long Island Sound.....	475
	CLXIII.—Young oysters (age 3 to 6 months) set on oyster shells and a rubber shoe; taken in dredging for oysters.....	479
	CLXIV.—(1) drills, 1½ size; (2) and (3) view of upper side and under side of starfish; six arms.....	481
	CLXV.—(1) and (2) two starfish destroying an oyster, two views; (3) starfish, five arms.....	483
	CLXVI.—Tangles rigged for use.....	485
