The printing of this publication has been approved by the Director of the Bureau of the Budget, August 2, 1955. (8/31/57)

CONTENTS

COVER: These ten trawlers were part of an over-all shipbuilding program designed to re-establish Korea's war-shattered fishing industry, on which that country depends for some 80 percent of its protein. The photograph shows the ten trawlers shortly after they were launched at the shipyard in Kowloon, Hong Kong, early in 1955. Originally purchased by UNKRA for the Korean fishing industry, these vessels recently were purchased by a new private Korean fishery firm (see p. 79 of this issue).
