The printing of this publication has been approved by the Director of the Bureau of the Budget, May 21, 1957. 5/31/60

CONTENTS

COVER: As part of a survey of fisheries techniques and gear used by Ceylonese fishermen, Food and Agriculture Organization fisheries advisers inspect catamarans, which are fishing craft built of several pieces of wood put together very simply. A sail is added and this primitive craft goes to sea. (See page 52 of this issue.)
