## CONTENTS

COVER: A cod end full of red snapper and some grouper alongside the U. S. Bureau of Commercial Fisheries exploratory fishing vessel Silver Bay on Campeche Bank in the Gulf of Mexico. The purpose of the trip in May 1958 was to locate suitable trawling grounds and to attempt bottom trawling for red snapper. At present the Gulf of Mexico red snapper fishery employs only hand lines which have become uneconomical.

A Practical Depth Telemeter for Midwater Trawls, by Richard L. McNeely . . . . .	1

Proposed Kauai Tuna Cannery, 8 pp., printed. Kauai Engineering Works, Ltd., Kauai, Territory of Hawaii.

A Study of the Dynamics of the Fishery for Yellowfin Tuna in the Eastern Tropical Pacific Ocean, by Milner B. Schaefer, 41 pp., illus., printed in English and Spanish. (Reprinted from Inter-American Tropical Tuna Commission Bulletin, vol. II, no. 6, pp. 247-285.) Inter-American Tropical Tuna Commission, La Jolla, Calif., 1957.

UNITED KINGDOM:

Scottish Sea Fisheries Statistical Tables, 1957, 48 pp., printed. Her Majesty's Stationery Office, 13a Castle St., Edinburgh 2, Scotland, 1958. Contains 23 statistical tables of the fish landed and cured, vessels and fishermen, and

creek returns. Tables 1 through 16 cover quantity and value of fish landed by British and foreign vessels; landings of British vessels according to methods of fishing from 1938 through 1957; quantity, value, and average value of each kind of fish landed by British vessels in 1913, 1930, and 1950-1956; quantity and value of each kind of fish landed in specific districts by British vessels of various types; quantity of each kind of fish landed from and expenditure of fishing effort in each fishing region by British vessels; quantity of each kind of fish landed by foreign vessels from each fishing region and quantity and value of fish landed by each nationality; and seasonal landings of herring. Tables 17 through 23 cover quantity of herring cured from 1913 through 1957; quantity and value of whitefish cured and herring cured in each district, according to method of cure; fishing vessels; fishermen employed; greatest number of vessels and persons employed by districts in herring fishing; and vessels, fishermen, and quantity and value of fish landed in creeks.
