CONTENTS

COVER: Deck scene on the M/V Silver Bay, chartered exploratory fishing vessel of the U. S. Bureau of Commercial Fisheries, during one of the scallop fishing demonstration trips conducted out of Ft. Pierce, Fla., in June 1960. Observers have joined the crew in hand shucking a large catch of calico scallops. (See p. 1 of this issue.)

UNDERWATER COMMUNICATION CABLES

Charts showing the exact routes of telephone and telegraph cables in the Northwest Atlantic area are now available for the first time to fishermen. Until recently, information about the locations of the cables has been restricted by governments for military reasons. It was noted that a great increase in otter trawling has led to a serious increase in cable breaks. The cable companies hope the release of the detailed charts will help prevent trawling damage to the cables. Copies of the charts can be obtained by writing to American Telephone and Telegraph Company, 32 Avenue of the Americas, New York 13, N. Y.

Editorial Assistant--Ruth V. Keefe

Compositors--Jean Zalevsky, Alma Greene, and Helen Paretti
