

COMMERCIAL FISHERIES REVIEW

A review of developments and news of the fishery industries prepared in the BUREAU OF COMMERCIAL FISHERIES.

Joseph Pileggi, Editor
G. A. Albano and H. Beasley, Assistant Editors

CONTENTS

COVER: The Canadian schooner Bluenose II (with her sails down) docked at Gloucester's State Fish Pier on July 2, 1964, for a 4-day visit. Bluenose II is a replica, only a year old, of Canada's famous racing schooner. Her predecessor, made famous in international fishermen's races years ago, is pictured on the Canadian dime. Bluenose II made her first United States port call in Gloucester in connection with the International Dory Races, and then sailed to Boston and on to the World's Fair in New York City where she was on display for 10 days. (See outside back cover of this issue for photograph of vessel with her sails up.)

Comparison of Salmon Catches in Monofilament and Multifilament Gill Nets--Part II, by Herbert A. Larkins
Weights and Measures Activities in the USDI Fishery Products Standard and Inspection Programs, by J. R. Brooker

TRENDS AND DEVELOPMENTS:

- Alaska:
Foreign Fishing Activity off Alaska, July 1964
Bristol Bay Red Salmon Run Fails
Salmon Waste Utilization
Filing of Fishery Disaster Loan Applications Ended September 30, 1964
Alaska Fisheries Exploration and Gear Research:
Exploratory Fishing for Shrimp and Scallops
Alaska Fisheries Investigations:
Pink Salmon Nursery Areas Discovered
Atlantic Fisheries Technological Conference: Meeting on October 11-14, 1964
California:
Growth Studies of English Sole in Monterey Bay
Pelagic Fish Population Survey Continued
Survey of Shrimp Resources in Northern and Central Coastal Waters Continued

Page

TRENDS AND DEVELOPMENTS (Contd.):

- 21 .. Cans--Shipments for Fishery Products, January-June 1964
Caroline Islands:
21 .. U.S. Tuna Fishing Base in Palau Islands Planned
Central Pacific Fisheries Investigations:
22 .. Trade Wind Zone Oceanographic Studies Continued
Clams:
23 .. Sanitation Quality Study in the Middle Atlantic Area
Federal Purchases of Fishery Products:
Department of Defense Purchases:
23 .. January-July 1964
24 .. January-June 1964
Great Lakes:
25 .. Aid Under New Fisheries Law Given Great Lakes Area
25 .. Commercial Fishery Landings, 1963
Gulf Fishery Investigations:
26 .. Shrimp Distribution Studies

FISH SWIMMING SPEEDS

Two University of California (at Los Angeles) scientists, using a magnetic "speedometer" attached to a fishing rod, measured the speed of a yellowfin tuna at about 45 miles per hour. A wahoo, a mackerel-like fish, swam up to 48 miles per hour. Zoologists previously have been of the opinion that fish seldom ever swam faster than 27 m.p.h. (Pacific Marine Fisheries Commission Newsletter, July 1, 1964.)
