 Mark-Recapture Tagging Program, 1966-71

This statement is required by the Act of August 12, 1970, Section 3685, Title 39, U.S. Code, showing ownership, management, and circulation of the *Marine Fisheries Review*, publication number 366-360, and was filed on 18 September 1991. The *Review* is published quarterly (four issues annually) with an annual subscription price of \$9.00 (sold by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402). The complete mailing address of the office of publication is: NMFS Scientific Publications Office, F/NWR1, NOAA, 7600 Sand Point Way NE, BIN C15700, Seattle, WA 98115. The complete mailing address of the headquarters of the publishing agency is: National Marine Fisheries Service, NOAA, Department of Commerce, 1335 East-West Highway, Silver Spring, MD 20910. The name of the publisher is Willis Hobart and the editor and managing editor is Willis Hobart; their mailing address is: NMFS Scientific Publications Office, 7600 Sand Point Way NE, BIN C15700, Seattle, WA 98115. The owner is the U.S. Department of Commerce, 14th St., N.W., Washington, DC 20230; there are no bondholders, mortgages, or other security holders. The purpose, function, and nonprofit status of the organization (agency) and the exempt status for Federal income tax purposes has not changed during the preceding 12 months. The extent and nature of circulation is as follows: Total number of copies (A) (average number of copies of each issue during the preceding 12 months) was 2307 and the actual number of copies of the single issue published nearest to the filing date was 2310. Paid circulation (B) is handled by the U.S. Government Printing Office, Washington, DC 20402, and (C) the total number of printed for their sales (mail subscriptions and individual sales) was 750 for both the average number of copies each issue during the preceding 12 months and the actual number of copies of the single issue published nearest to the filing date. Free distribution (D) by mail, carrier, or other means; samples, complimentary, and other free copies (average number of copies each issue during the preceding 12 months) was 1557 and the actual number of copies of the single issue published nearest to the filing date was 1560. The total distribution (E: sum of C and D) (average number of copies each issue during the preceding 12 months) was 2307 and the actual number of copies of the single issue published nearest to the filing date was 2310. There were no copies not distributed or returned from news agents (F). The total (G: sum of E and F) is equal to the net press run figures shown in Item A: 2307 and 2310 copies, respectively. I certify that the statements made by me above are correct and complete: (Signed) Willis Hobart, Publisher.
